WHEN CHANGE IS NEEDED!

About Mathieu Pothier

Hi, my name is Mathieu Pothier. I've had the joy of living in the great town of St-Charles for most of my life and have been involved in the community at many different levels. From playing minor hockey, t-ball and soccer to working for the municipality as a summer student in my high school years. And now in helping the new generation grow by helping in any way possible through volunteering whenever available. With a growing family including my Wife (Chantal Pothier), our 3-year-old son (Olivier) and another son on the way it has helped me learned responsibility and compassion. Through all this personal growth I've come to appreciate everything that was offered by the municipality and many of its committees.

Why Mathieu Pothier as councillor?

If elected for councillor I would continue to promote this sense of community that needs to be shared with all our neighbors, friends and family. We need now more than ever to help each other in making the changes that so need to happen, happen. Only with clear transparent communication between the staff, the council, the citizens of St-Charles and the various committees can we build up the current and next generations. I will continue to support in any way possible the aging community as they are the ones who have helped build this town before us, as well as the youth of St-Charles as they are the future, and only through building everyone up can we become a more successful community.
