

Paul Branconnier

I, Paul Branconnier, was born in St.-Charles and raised on the family farm. The eldest of four siblings, I was frequently responsible for the daily operation and management of the farm.

I attended the University of Guelph where I graduated with honors. While at university I explored new learning avenues when I managed to obtain a job in Switzerland where I worked for four months.

I first worked for United Co-operatives of Ontario (UCO) for six years. During this time, I held the positions of manager at Hamilton Pier 12 and then moved into the position of expeditor at the Mississauga head office.

I then returned to St.-Charles where I initially intended to take over the family farm but was prevented when the work aggravated a previous back problem. I put my experiences to good use when I worked for Collège Boréal in Sturgeon for five years where I taught "Starting a Small Business" as well as various college courses. I now teach at the elementary school "St-Antoine" in the neighbouring community of Noëlville.

My spouse and I are active community volunteers and have been implicated either behind the scenes or on the front line of many fundraising events in St.-Charles. We are also avid travelers and have travelled coast to coast in our beautiful country and still enjoy discovering new places together.

An important part of my personality is my analytical side. Once I engage in a problem, I analyse it from multiple facets until I have a clear understanding of it. I research it initially via internet and literature then call people with more insight that are familiar with the subject matter.

I believe that my experiences and expertise along with my collaborative approach to problem solving will benefit the people of St.-Charles. I strongly believe that the role of council is one of stewardship managing the municipalities resources for the betterment of the citizens who live in St.-Charles, all the while planning for the future of the community.

If elected, I will work to improve communication and transparency of municipal affairs.
