MUNICIPALITY OF ST.-CHARLES
NOISE CONTROL BY-LAW 2022-19

SCHEDULE “E” - NOISE CONTROL POLICY

All property owners are required to limit noise according to standards set in the “Noise By-Law”.

When a complaint is received, an MLEO will investigate to determine if a violation exists. If a violation is found, the MLEO can issue a fine advising the owner of the violation and requiring that it be remedied.

This By-Law will not be used to resolve issues between neighbours.

In view of the fact that the Municipality of St.-Charles has many diverse neighborhoods such as village areas, waterfront residential, waterfront commercial, farmland and rural residential, enforcement will have to be done with some discretion taking into consideration the complainant, the geographic location of the property in question, the size of the property in question, the type of property in question (farmland vs urban lot) and the effect of the infraction on adjacent properties and the general well-being of the residents of the area, and the Municipality. As the complaints and investigations become more numerous, past practice data as well as the consistent application of the Policy will become more evident and will act as a guide in the application of the By-Law.

This information is for convenience and quick reference only. For specific information, contact the Municipal Office.
